CHA's Summer Internship Program

CHA has an extensive and competitive Summer Internship Program. Each summer, CHA employs over 40 interns throughout our offices in the United States and Canada. Over the 8 to 12 week duration of CHA's internship program, our interns participate in authentic learning experiences that help them improve and develop skills. These opportunities include:

- Real hands on experience; performance of entry level responsibilities
- Teamwork among fellow interns and technical team members
- Technical presentations
- Project site visits
- Research project and presentation participation
- Social outings & community outreach opportunities
- Field work

Our internship program aims to prepare students for the entry-level work environment and provide them with the best resources to be successful in their future careers. Ideally, we seek students who are going into their junior or senior year of college with the goal of potentially making an offer to top performing graduating interns.

How to Apply

We encourage students interested in participating in our summer internship program to apply directly through our website:

<http://chacompanies.com/careers/career-opportunities/>

When Will I Hear Back?

In the case we have an upcoming summer internship need that matches your skill set and interests, due to a high volume of applicants we will reach out to candidates of interest only during the following time frames:

Fall Resume Submittal: **September – January**
Spring Resume Submittal: **March – April**
